D. W. BAIN, of Wake. FOR SUPT. OF PUBLIC INSTRUCTION, FOR ATTORNEY-GENERAL. F. I. OSBORNE, of Mecklenburg. JAMES C. MACRAE. FOR JUDGE TWELFTH DISTRICT : GEORGE A. SHUFORD, of B. neombe. FOR CONGRESSMAN FOURTH I I-TRICT : B. H. BUNN, of Nash

Was there ever a more shameful political bargain than that recently consummated in this city to secure the defeat of Mr. Bunn? There is Eaves of the one part and Wilson of the other, with John Nichols and Logan Harris as witnesses. Mr. Sanders conveys his political princi ples for a consideration which goes to Eaves and Wilson, with Mr. Stroud as the exponent of the bargain, Nichols being provided for and Logan, as usual, an heir in expectancy.

Will the honest voters of this congressional district allow such a corrupt bargain to be validated by the defeat of Mr. self to put down political rascality guard wherever found, and he now has the opportunity of attesting his appreciation of political integrity and his detestation of tre political dishonor. Shall the candidate of a secret political society represent this district in the next Congress ?

THE fifteen hundred democratic ma jority in Tom Watson's district in Georgia has so frightened him that he has appealed to his deluded political followers for protection, and a few nights ago dignant. a large company of them stood guard, with arms in hand, around Watson's are spending their money to some purhouse. Watson is doing the democratic pose in organizing and maintaining an party in Georgia too much good for any that he was protected than to countenance any policy looking to him personal life was not safe anywhere in his own district. If society has been disorganized political agitators as Mr. Watson that ter. have done it. There are a few just such agitators in this State, but when these into merited oblivion.

THE candidacy of Mr. Buchanan for Governor in Tennessee, appears to have been the outcome of a corrupt bargain, the facts in regard to which are given by the New York World:

A DUTY TO THEMSELVES. BILL.

When the voters of the third party are asked by their leaders to vote in the interest of the republican party, they should reflect that to comply, directly or indirectly, would violate every principle of political honor.

The platforms of the republican and third party are as dissimilar as it is pos sible for two polltical creeds to be, and for a third partyite to aid in any way to make effective republican principles would be a most shameful stultification and abandonment of principle.

Every reform advocated by the third party has been and is as strongly opposed by the republican party, and there is not a grievance complained of by the former that cannot be traced directly to the latter.

Then how can a third party voter, it he appreciates political honor, so forget himself as to vote directly against his professed faith and his interest?

The view presented here is based upon indisputable facts.

We have the platforms of each party, and have examined the one in connection with the other only to find an antagonism as great as exist between the North and South pole.

This antagonism cannot be removed by a vote to defeat the democratic party, which is the great conservator of public peace and prosperity. It is the only party to which the Southern farmer can look for extrication from the embarrassing position in which he has been placed by republican legislation, and in which the leaders of the third party would still further involve him by their plan to neutralize his vote to perpetuate the power that has crushed him.

No person of ordinary intelligence can fail to see the combination between reselves and their country to defeat these tween Eaves and Wilson has become conspirators in political corruption and

The proof of the existence of a base and illegitimate combination between the leaders of the republican party and the third party is daily becoming clearer. This combination, sustained as we believe by a corruption fund coming from republican national headquarters, has for its ultimate purpose the rehabilitation of and the placing of the State under the bonds of a Federal election law.

This money is used in the Northern States in the purchase of voters either to stay away from the polls or vote the republican ticket. In the South it is being used to perfect an alliance between the third party and the republican party. In North Carolina it is being used to manipulate a combination by which a sufficient number of voters, heretofore democrats, will vote for the third party electoral ticket to insure the election of the republican electoral ticket. In plain English, the third party leaders have undertaken to induce the men whom they are deceiving with the promise that Weaver will be elected, to vote the third party ticket, not for the purpose of eliciting that ticket, because they know It shows that in peaceful and honest that is an improbibility, but for the pur pose of so reducing the democratic vote
